Mission on Climate Adaptation

The Mission's objective is to accompany by 2030 at least 150 European regions and communities towards climate resilience.

- Better understand the climate risks they are and will be confronted with in the future
- Develop their pathways to be better prepared and cope with the changing climate
- Test and deploy on the ground innovative solutions needed to build resilience

Mission Restore our Ocean & Waters

The Missions will work towards meeting the follow goals for 2030:

- **Protect and restore marine and freshwater ecosystems** and biodiversity, in line with the EU Biodiversity Strategy 2030
- **Prevent and eliminate pollution** of our ocean, seas and waters, in line with the EU Action Plan Towards Zero Pollution for Air, Water and Soil
- **Make the sustainable blue economy carbon-neutral and circular**, in line with the proposed European Climate Law and the holistic vision enshrined in the Sustainable Blue Economy Strategy

Four basins with four "lighthouses"

These four basins were initially matched with one of the three mission goals.

However, this is less pronounced in the current phase of the mission implementation.

Entering an "upscaling phase" from 2025.

How do I apply?

The screenshot shows the 'EU Funding & Tenders Portal' with a navigation bar including Home, Funding, Procurement, Projects & results, News & events, Work as an expert, and Guidance & documents. The 'Funding' section is active, leading to 'Calls for proposals'. A breadcrumb trail shows 'Home > Funding > Calls for proposals'. The page title is 'Calls for proposals', followed by a description: 'Calls for proposals are funding opportunities issued by the European Union institutions, agencies and bodies. These are direct financial contributions, known as grants, that are awarded to third-party beneficiaries engage in activities that serve EU policies.' A 'More details' link is provided. On the left, a 'Filters' sidebar includes a 'Quick search' box, a 'Programming period' dropdown, a 'Horizon Europe (HORIZON)' dropdown, a 'Call' dropdown, a 'Submission status' dropdown, and an 'All filters' button. The main content area, titled 'GRANTS RECOMMENDED FOR YOU', asks if the user wants personalised recommendations and provides links to 'Log in' or 'register'. It shows '131 item(s) found' and a 'Programme' filter set to 'Horizon Europe (HORIZON)'. Two grant listings are visible: 'Waste-to-value devices - circular production of renewable fuels, chemicals and materials' and 'Towards autonomous robot collectives delivering collaborative tasks in dynamic unstructured construction environments'. Both listings include details like 'HORIZON-EIC-2025-PATHFINDERCHALLENGES-01-04', 'Call for proposal', 'Opening date: 24 July 2025', 'Deadline date: 29 October 2025', 'Single-stage', and 'Programme: Horizon Europe (HORIZON) | Type of action: HORIZON EIC Grants'.
